

# The Fuse Saver® Product Line

## CHECK OUT OUR NEW PRODUCTS

The Fuse Saver® provides a fantastic solution to the old methods of “smoke testing” a short. You can dive into dashboards, kick panels, and inner fender wells without having to stop what you are doing and lose your position.

- **BuzzAlert™ #8011**

The *BuzzAlert™* module clicks onto your existing Fuse Saver® to provide an audible alert when the circuit triggers, notifying a short circuit.

- **30 AMP FuseSaver® #8005-30**

*30 Amp Fuse Saver® Handle* is a great addition to the *Standard Kit #8005*.

- **Fuse Box Adapter Kit #8014**

The new *Fuse Box Adapter Set* allows the Fuse Saver® access to a wide variety of fuse boxes including FLF, FLS, JCase, MAXI, Female Maxi, screwon style PAL, European ceramic and all glass style fuse applications.

- **FuseSaver® Master Kit #8016**

The new complete *Fuse Saver® Master Kit* includes 5, 10, 15, 20 and 30 amp breaker handles, 10 ft cord with the dual connector, *BuzzAlert™* module and the complete *Fuse Box Adapter Set*, all in one custom case.

FuseSaver® 30 Amp Handle #8005-30 in-line with the BuzzAlert #8011

FuseSaver® Master Kit #8016
