

## PUT THE POWER IN YOUR HANDS

MADE  
IN USA

13" x 7" x 4"  
Wt.: 2 lbs

- Find Short Circuits
- Parasitic Draw
- Bypass Relays
- Bench Test Electrical Equipment

The Pulsar® with Electronic Fuse Saver® will find short circuits, parasitic draw and bench test electrical equipment without blowing fuses. The first tool of its kind, it features a 50A ammeter with peak hold and adjustable fuse setting.

- Digital Readout with Peak Hold
- Adjustable Fuse/Current Limit
- Pulses Power to Shorted Circuits
- Automatic & Manual Controls

100mA – 50A RANGE (12V DC)

### IN CASE OF A SHORT:

The PULSAR™ connects directly to a fuse box and acts as an adjustable automatic circuit breaker to keep the circuit powered up while the technician locates the short.

### PARASITIC DRAW TESTING:

Easy parasitic draw testing with peak hold monitoring (0.1 - 50 Amps). Great for intermittent power drains!

### BENCH TESTING:

Connect to a DC power source and dial in the desired fuse setting. Manual or automatically apply power with the push of a button to a wide range of applications, including fan motors, lights, blowers, relay circuits, etc.

### AMPERAGE DISPLAY:

Read up to 50 Amps with a 0.1 resolution.

### KIT INCLUDES:

- 3 Foot Cable
- 10 Ft. Ground Cable
- Adapters: Standard, & Mini, Maxi and Alligator Clips
- Soft Carrying Case

ALSO AVAILABLE: 5 Piece Fuse Box Adapter Kit (#9030) and 10 Ft. Voltage Probe Adapter (#9031)

#9001  
MASTER KIT

# GREATLY REDUCE TIME DIAGNOSING AUTOMOTIVE WIRING PROBLEMS

## FEATURES

- Automatic Circuit Breaker
- Adjustable Fuse Setting 1-50 Amps
- 100 mA -50 Amp Amperage Read Out
- Digital Readout with Peak Hold
- Automatic & Manual Controls
- Voltage Probe Test & Bypass Relay Circuits

## BENEFITS

- Safely Supply & Read Current with Overload Protection
- Automatically Pulse Power to Shorted Circuits
- Easy Parasitic Draw Testing
- Chase Down Short Circuits w/out Blowing Fuses
- Test & Bypass Relay Circuits
- Connect to DC Power for Bench Testing & Voltage Probing
- Automatic & Manual Control

**Pulsar® Master Kit Provides 5 Additional Fuse Box Adapters  
And A Voltage Probe For Fast Circuit & Relay Testing**

- Fuse Adapters:  
Standard & Mini, Maxi, Glass Style Fuse Adapter, European Ceramic Fuse Adapter, FLF, Screw-On PAL Fuse Adapter, FLS, Female Spade Maxi Fuse Adapter, Female Spade Fuse Adapter
- 3 Ft. Cable
- 10 Ft. Ground Cable
- 10 Ft. Voltage Probe Adapter
- Alligator Clip Adapter
- Soft Carrying Case
